

NOTE FOR: CIA Representative Reviewing Draft of NSC
Implementing Directive for E.O. 12065

28 JUL 1979

1. As the Chairman of the DCI Security Committee, I recently had opportunity to present to the NFIB, DCID 1/19. In part, this DCID provided for recognition that there is a need to differentiate between procedures for transmission of classified material - in the sense that material is to be transported by a courier or mail service - and for transportation or movement of classified material in the custody of a responsible using official. This DCID also made attempt to recognize that protection during transmission of classified material cannot be mandated through technical details such as requiring multiple wrappings or the use of multiple couriers. This position was acceptable and was endorsed unanimously by NFIB members.

2. I would appreciate your assistance in introducing similar language for consideration and inclusion in the NSC Implementing Guides for E.O. 12065 to permit the exercise of common sense and reason in the requirements for transmission and movement of classified material. I attach proposed draft language for insertion in the appropriate section of the NSC Guides.

NOT SIGNED.

R. Gambino
Chairman, Security Committee
